Subject: B-1, motion

I move to refer the proposed Bike Parking Amendments back to the Planning Commission for further consideration and analysis, toward the following outcomes:

- Maintenance of current requirements or increase of proposed requirements for the quantity of class A bike parking in D1 and D2 zoning districts.
- An increase in required barrier free/oversize bicycle spaces for Class A, B, and C spaces from the proposed standard and reduction in threshold that triggers need to provide barrier free spaces
- Explore an increase in required Class B bicycle spaces across multiple zoning districts and uses, except D1 and D2.

That these outcomes be considered and responsive modifications be presented back to the City Council by July 6, 2026.
