Jacqueline-

There was an oversight in adding the exemption for city staff use of chain saw use.

I will need this added as an amendment when I bring back the ordinance later tonight.

Thank you!

Attachments: Agenda Responses 4-1-19 FINAL.pdf

Hi Jack,

I want to make it clear that your question re the Office of Sustainability and Innovation (OSI) budget is mixing apples and oranges. *The figure you indicated I had provided CMs was for climate action, not the total budget for OSI.*

I provided the input in italics below to the City for its response to Council and I stand by my climate action-related FY19 budget figure. My credibility and honesty in general is *extremely* important to me. I am very human, however. In cases when I'm wrong, I will admit it and apologize - proactively if I recognize my mistake on my own but also if someone else points it out to me. In this case, I believe all of my communication re climate action spending in recent weeks has been accurate and not deceptive in any way.

DC-3

- *Re **climate action** (JM: bold underlining added) spending*
 - *In a email exchange with Missy Stults last year, she confirmed the following statement I had drafted in a 10/18/18 email to me:*
 - *According to Missy, ~ 75% of the Office's time and funding relates to climate action in one way or another. Thus, total A2 funding of climate action amounts to ~ \$0.56M per year.*
 - *In addition to the \$0.56M, Council approved a FY19 budget adjustment of \$0.25M for spending on a list of projects recommended by Missy.*
 - *The two total to \$0.81M which is the number CM Eaton is referring to which I cited.*

Dear Jane,

I watched the meeting tonight and I wanted to let you know that even though I no longer live in the Ward 2 area, I truly appreciate your efforts on council. It seemed to me that, at times, you were a voice crying in the wilderness.

Your depth of knowledge about city council historical issues and procedure is obvious; as was your frustration with efforts by some to circumvent the process. Your integrity and your insistence that council be held accountable to the public is EXACTLY how every council member needs to operate.

Thank you for your long service to our community and fighting the good fight.
