6" meter	528.00
8" meter	1055.00
10" meter	1055.00

2:65 Residential summer service billings.

The charge established in Section 2:64 shall be applicable to quarterly residential bills rendered in each month, January to June, inclusive, except as hereinafter provided. To eliminate water consumed but not disposed of in public sanitary sewers during “summer” months, sanitary sewer consumption on quarterly bills rendered in each month, July to December, inclusive, shall be based on average daily water consumption during a 30 day winter time period. The 30 day base period will be set from mid-November to mid-December or as close to that time period as possible based on the availability of meter reads. If the calculated consumption for a summer bill is greater than the actual consumption for the period covered by that bill, the customer will be charged based on actual consumption.

Bill Rendered:	Charges to be Same as Bill Rendered
July	April
August	May
September	June
October	April
November	May
December	June

Where premises are billed on a monthly basis, the bills for six consecutive months during the period due in May through October shall be charged for summer sanitary service using the calculated consumption or actual consumption, whichever is less, as describe in the preceding paragraph. the same as the bill rendered in April of the same year. Where sanitary sewer service or water service was not used by any premises during the 30 day base period month or quarter on which the charges calculated consumption is based for any subsequent month or quarter are to be based the customer’s “summer” billing periods, this section shall not be applicable but the charges for such subsequent the “summer” months or quarters shall be based on the rates established in Section 2:64. The summer calculation of charges under this section shall not be used unless the calculated average daily consumption is at least 1 unit. Whenever, in the discretion of the Public Services Area Administrator, application of this section the foregoing table would be inequitable because any customer premises consumes abnormal amounts of water during the winter months or consumes amounts of water of which an abnormal amount or proportion is returned to the public sanitary sewers during the summer months, the DirectorPublic Service Area Administrator, may bill such customer on the basis of water actually consumed during each the month or quarterly period for which the customer is billed and apply the rates specified in Section

2:64. Any customer may, at his/her option, elect to be billed for sanitary sewer service on the basis of water actually consumed during each month or quarterly period. Both water service charges and sanitary sewer service charges shall, however, be billed on the same basis, either quarterly or monthly.

2:69 Stormwater Rates.

(1) Except as provided in this section and Chapter 33, all property shall be subject to the stormwater utility charge.

(2) *Stormwater Discharge Rate.* Each property shall be billed at a quarterly stormwater discharge rate of \$33124.00 per acre multiplied by the representative impervious area of the property. The representative impervious area of the property shall be the measured impervious area, rounded to the nearest 0.01 acre, of the portion of the property discharging to the City's stormwater system, except for single-family and two-family residential properties and properties considered residential for storm and sewer. These properties have been grouped into the following categories based upon their measured impervious area:

Single-Family and Two-Family Residential		
Measured impervious area	Representative Impervious Area	Quarterly charge
Less than or equal to 2,187 square feet	0.04 acres	\$13.2412.84
Greater than 2,187 square feet to less than or equal to 4,175 square feet	0.07 acres	\$23.1722.47
Greater than 4,175 square feet to less than or equal to 7,110 square feet	0.12 acres	\$39.7238.52
Greater than 7,110 square feet	0.21 acres	\$69.5167.41

(3) *Customer Charge.* Each property shall be billed a customer charge of \$6.77 per quarter.

(4) *Credits to Stormwater Discharge and Customer Charges.* The City shall offer the following credits per quarter to property owners fully satisfying pertinent criteria established in Chapter 33 and in regulations promulgated by the Administrator:

Single-Family and Two-Family Residential	Reduce Total Charge by	
Rain Barrels (One or more)	\$ 1.881.85	
Rain Gardens / Cisterns / Dry Wells	\$ 2.942.90	
RiverSafe Homes	\$ 1.301.28	
Chapter 63-Compliant Stormwater Control	\$ 7.807.41	
Other Properties	Reduce Stormwater Discharge Rate by	Reduce Customer Charge by
Community Partners for Clean Streams	0.0%	17.3%
Chapter 63-Compliant Stormwater Control	29.5%	0.0%
Other Approved Stormwater Controls	6.4%	17.3%

(5) *Charges for permitted non-stormwater discharges.* The charges for non-stormwater discharges to the stormwater system that are permitted by the public services area administrator according to Chapter 33, Section 2:217, shall be \$0.~~6031~~ per 1,000 gallons. If non-stormwater discharges to the stormwater system are controlled such that the discharges cease during periods of precipitation, then the above rate shall be multiplied by a factor of 0.3. For any month in which the user discharges into the stormwater system, there shall be a minimum bill for 100,000 gallons. Stormwater discharges exempt from discharge prohibitions under Section 2:216 (3) are not subject to this charge.

Section 2. This ordinance shall take effect on the tenth day following legal publication or on July 1, 2011, whichever is later.
