

**CITY OF ANN ARBOR – PARKS ADVISORY COMMISSION
MEETING MINUTES
January 20, 2009**

The regular meeting of the Park Advisory Commission was held on Tuesday, January 20, 2009 at 4:00 p.m. in the Washtenaw County Administrative Building located at 220 N. Main St., Ann Arbor, Michigan.

I. The meeting was called to order at 4:06 p.m. by Chair, L. Berauer.

II. Roll Call:

Members Present: (9) L. Berauer, B. Macomber, D. Barrett, J. Lawter, G. Nystuen, S. Rosencrans, T. Berla, J. Grand S. Offen

Ex-Officio Members Present: (1) C. Taylor

Ex- Officio Members Absent: (1) M. Anglin

Members Absent: (0) None.

Staff Present: (11) J. Straw, K. Henderson, C. Saam, J. Dehring, D. Borneman, M. Warba, L. Bowen, C. Smith, G. Trocchio, D. Kelly, A. Walton

APPROVAL OF AGENDA – Commissioner Berauer stated there were no changes to the agenda. The agenda would stand to be approved.

PUBLIC COMMENTARY - AGENDA ITEMS (3 Minutes per Speaker)

Marne Smiley (Executive Director of the Michigan Mountain Biking Association and also serves on the Advisory Board for the State Parks Committee) introduced herself to the Commission and explained what her role consists of. Ms. Smiley stated she would be willing to do a presentation if the Commission requests.

Mark Hildebraudt expressed his concern with Washington Park, located at the corner of Washtenaw and Hill St. Mr. Hildebraudt shared the history of the park in depth with the Commission and expressed concern regarding the painting of what is known to many as the “rock” since approximately 1950.

Mr. Hildebraudt is a member of the Oxford Neighborhood Association and stated there should be a plan put in place to stop the painting of the “rock”.

Emily Hildebraudt expressed her feeling regarding the painting of the “rock” and how this symbol of the City is being disregarded and disrespected. E. Hildebraudt also stated there should be a plan in place to address this issue.

51 **Glenn Thompson** spoke on the priorities of park issues including; park mowing and the
52 Farmers Market renovations. Mr. Thompson mentioned the repairs to the Farmers Market
53 have not been completed and expressed concern regarding this matter and urged the
54 Commission to proceed with caution.

55
56 **A - APPROVAL OF MINUTES**

57
58 **A-1 Commissioner Macomber** moved, supported by **Commissioner Rosencrans** to
59 approve the minutes of the December 16, 2008 meeting with the noted corrections
60 on page (line 477/488 pg 10 date of retreat Feb 2008) pg 3 line 108 (Jean Clugy in
61 Lakewood Woods worked with Scott) & line 115 should state, little invasive
62 vegetation at Lakewood Park (line 169 pg 4, correct the volunteer hours
63 information on line 174), 4, 10 Line 227 revenue should read for 2008 would be
64 available, (line 226 pg 5) asked how soon the revenue for 2008 would be available,
65 line 247 should read parks general fund budget –parks budget subset of the City’s
66 budget.

67
68 The minutes of December 16, 2008 were approved with stated corrections
69 unanimously.

70
71 **SPECIAL PRESENTATIONS**

72
73 **Introduce Director of Golf**

74
75 **Jeff Straw** (Deputy Manager for Park and Recreation Services) introduced Doug Kelly
76 (Director of Golf) and Andrew Walton (Facility Supervisor for Huron Hills Golf Course) to the
77 Commission.

78
79 **Doug Kelly** gave the Commission an overview of his work history regarding golf and stated
80 he is looking forward to working at the City of Ann Arbor.

81
82 **T. Berla (No Audio – Microphone not activated)**

83
84 **Andrew Walton** introduced himself to the Commission and stated he has worked with the
85 City for approximately eight years as a temporary employee and has now been hired as a
86 permanent Facility Manager at Huron Hills golf course. A. Walton stated he is looking
87 forward to continuing his work at the golf course.

88
89 **S. Offen (No Audio – Microphone not activated)**

90
91 **Resolution Honoring Rob Millett**

92
93 **T. Berla** read and presented Rob Millett with a Resolution from the Recreation Advisory
94 Commission on the exemplary work that was done regarding the lighting system at the ball
95 fields.

96
97 **Rob Millett** expressed thanks to the Commission.

98
99
100

101 **D. Barrett** complimented Rob Millett on his efforts with the renovation of the fields.

102
103 **Report from Argo & Gallup liveries on the 2008 Season**
104

105 **L. Berauer** gave an overview of the issues at Argo Dam. Also stating the Commission has
106 heard from the White Water and Rowing Communities.
107

108 **C. Saam** explained a Power Point presentation in depth to the Commission stating there are
109 two Liveries in the City. The Argo River trip which runs from Argo Park to Gallup Park is the
110 most popular river trip. Huron River Day is an event that draws approximately 2500 people.
111

112 A pilot kayak camp at Argo Park ran for 1 week in 2008 but the camp will expand to 4 weeks
113 in 2009. There will be a lot of fun activities including kayaking, bonfires and fishing.
114

115 **C. Saam** stated that River Connections is an educational program for the 7th grade
116 classrooms that partner with Ann Arbor Public Schools and the Leslie Science Center.
117 States the program is in its infancy stage but they will continue to work with local schools to
118 locate grant money to support these initiatives. The liveries host river cleanups at least
119 once a month.
120

121 The liveries own 233 boats and according to the Marine Sheriff are the largest canoe livery
122 in the State of Michigan. Newer boats have been purchased and some of the older boats
123 will be sold at an auction.
124

125 **C. Saam** complimented the Canoe Livery staff on their exemplary but exhausting work.
126

127 **C. Saam** stated that there are group discounts but in 2008 the Resident and Non-Resident
128 fees were eliminated. The majority of river trips (85%) were between Argo Park and Gallup
129 Park and canoe and kayak rentals were the most popular. There has been a steady growth
130 in canoe livery patrons since 2003. Argo is the busiest livery on the weekends due to the
131 river trips. States they are working on ways to better accommodate crowds on the
132 weekends.
133

134 **C. Saam** stated that revenues and expenses have grown proportionately. In 2009 there will
135 be various improvements to both the Argo and Gallup canoe liveries and purchase of new
136 equipment. There are three different options concerning the Argo Dam which are to repair
137 it, remove it or a hybrid option that would take the portage at the end of Mill Raceway and
138 use it as a little stream.
139

140 **C. Saam** stated there are many challenges at the liveries including risk management,
141 accommodating the crowds, parking and getting resources for improvements. Opportunities
142 include expanding the vehicle fleet, putting a livery at Barton Dam and the River Education
143 program.
144

145 **L. Berauer** asked if usage had increased at Argo Park.
146

147 **C. Saam** stated yes that usage increased at both the Argo and Gallup liveries.
148
149

150 **L. Berauer** stated that in the quarterly report there were indications that there was a
151 decrease in canoe rentals at the Gallup livery due to a larger patronage at the Argo livery.
152 She asks if this is a new trend or has this occurred in previous years.

153
154 **C. Saam** states yes this has been a trend that might be due in part to the river trips or a
155 nicer facility at Argo than at Gallup.

156
157 **C. Smith** states that the improvements to the livery at Argo Park and the expanded hours
158 could account for the increase in patronage.

159
160 **S. Offen** (No Audio – Microphone not activated)

161
162 **S. Offen** asked if there were two paths that patrons could canoe on.

163
164 **C. Saam** stated yes.

165
166 **S. Rosencrans** encouraged the Commission to attend the HRIMP Public Meetings and
167 asked if a fishing license was required.

168
169 **C. Saam** stated that children do not need one but anyone seventeen years of age or older is
170 required to have a license.

171
172 **T. Berla** asked which of the three options regarding the Argo Dam were best for canoeing.

173
174 **C. Saam** stated she wasn't sure which option would be best.

175
176 **L. Berauer** asked if the Argo Livery met its revenue goals versus Gallup Park.

177
178 **C. Saam** stated she felt both locations are meeting their revenue goals. Also stating Argo
179 may possibly be ahead regarding meeting the revenue goals.

180
181 **C. Smith** stated is it difficult to separate the actual financial data of the two locations
182 because they are jointly ran.

183
184 **C. Taylor** asked is there a way to determine which activities are in demand.

185
186 **C. Saam** stated the river trips have been in more demand.

187
188 **PUBLIC HEARING**

189
190 **B - UNFINISHED BUSINESS**

191
192 **B-1** Update on Bylaws

193
194 **L. Berauer** spoke on this issue briefly, stating that the City Attorney has
195 reviewed the changes and comments. The next draft will be presented to the
196 Commission at the next meeting. L. Berauer also stated the language of the
197 bylaws has been improved.

198

199 **S. Rosencrans** asked if the Commission would be allowed to review the
200 changes.

201
202 **L. Berauer** stated yes.

203
204 **S. Rosencrans** stressed the importance of the microphones being
205 activated so the audio can be heard.
206

207 **C - NEW BUSINESS**

208
209 **C-1** Resolution to Modify Golf Fees

210
211 **C. Smith** explained the revised golf fees to the Commission in depth which will
212 go before City Council at the February 2009 meeting. This material was also
213 included in the packet. C. Smith stressed that one of the main goals for this
214 upcoming season will be to increase the level of play for the juniors and
215 seniors especially at Huron Hills golf course. There will be a recommended fee
216 decrease proposed for the juniors and seniors at the Huron Hills location.
217

218 A reduced fee season pass is also proposed for the juniors to possibly
219 increase the level of play.
220

221 **J. Grand** asked if the fee for the twilight time has been proposed for an
222 increase.
223

224 **C. Smith** stated yes.
225

226 **S. Offen** asked for an explanation to the term "twilight time".
227

228 **C. Smith** stated twilight starts at different times throughout the season, but
229 typically allow for 2+ hours of play before dark.

230 **L. Berauer** asked for an explanation of why there is an increase with the age
231 group of high school players.
232

233 **C. Smith** explained the high school teams were offered a reduced rate for a
234 very long time. The proposal now is to increase their fees and charge the high
235 school teams the same rate as the juniors.
236

237 **J. Grand** (No Audio – Microphone not activated)
238

239 **D. Barrett** (No Audio – Microphone not activated)
240

241 **C. Smith** stated the junior pass is \$100.00 for the season and an additional
242 \$2.00 each time one plays 9 holes. This form of junior pass was very popular
243 at one time.
244

245 **B. Macomber** asked if the proposed reduction in fees would reduce the
246 revenue at the golf courses; and if the proposed fees had been in place in the
247 last fiscal year was there an estimate of what the difference in revenue would
248 be.

249 **C. Smith** stated the growth in the revenue is a major concern and the goal is
250 not to overly reduce the fees. Hopefully the level of growth at the courses will
251 offset the reduction of the fees. The value of getting the youth back to the
252 courses is of the utmost importance.

253
254 **L. Berauer** stated there is a recommendation to increase the age to qualify as
255 a senior citizen which is 57 years of age.

256
257 **C. Smith** stated the recommendation regarding the qualifying age of senior
258 citizen status is a continuation from last year.

259
260 **L. Berauer moved, supported by J. Lawter** to approve the Resolution to
261 modify Golf Fees.

262
263 **C. Smith** read the Resolution to modify golf fees to the Commission:

264
265 MEMORANDUM

266
267 TO: Parks Advisory Commission

268
269 FROM: Colin Smith, Parks and Recreation Services Manager

270
271 DATE: January 20, 2009

272
273 SUBJECT: Resolution to Modify Fees at the City Golf Courses Effective for the 2009 Golf
274 Season and Increase the Senior Citizen Qualification Age

275
276 Attached for your review and recommendation is a resolution to modify fees at the City golf
277 courses for the 2009 golf season.

278
279 The City Council appointed Golf Courses Advisory Task Force reviewed golf fees for Huron
280 Hills and Leslie Park Golf Courses as part of the process of evaluating the 2008 golf
281 season. In an effort to increase junior and senior play at both courses, reductions in daily
282 play fees and season pass fees for juniors and seniors are recommended. The introduction
283 of an "adult and youth" fee is also proposed. Three fees have a proposed increase: high
284 school 9 holes and 18 holes, to be in line with the junior 9 and 18 rate, and twilight at Leslie
285 Park as the course is at capacity during this time.

286
287 In its December 2007 report the City's golf consultant, Golf Convergence, Inc.,
288 recommended increasing the senior citizen qualification age to 56 for 2008 and to increase
289 the threshold by one year each year thereafter until the age to qualify for senior rates is
290 established at 62. It is therefore recommended that the senior citizen qualification age be
291 established as 57 for the 2009 season.

292
293 Attachment: 2009 Proposed Golf Fee Schedule

294
295 Prepared by: Colin Smith, Parks and Recreation Services Manager

299 **S. Rosencrans** asked if the fee changes will increase revenue.
300

301 **C. Smith** stated yes especially in the season passes. In the past there has
302 been a decline in the season passes, with the fee changes the hope is this will
303 change in a positive way.
304

305 **S. Rosencrans** asked if staff assumes there will be a projected increase in
306 revenue at both golf courses as a result of the fee changes.
307

308 **C. Smith** stated yes.
309

310 **S. Offen** asked if the changes will be seen in the proposed budget.
311

312 **C. Smith** stated yes.
313

314 **S. Rosencrans** asked if there will be any additional expenses involved with
315 the proposed fee changes.
316

317 **C. Smith** stated no.
318

319 **L. Berauer** called for a vote from the Commission regarding the Resolution.
320

321 *On a voice vote – **Motion Passed** – Unanimous*
322

323 **C-2** Farmer's Market Project Update
324

325 **J. Dehring** spoke in depth and explained the history of the Farmer's Market to
326 the Commission. The vision to expand the Market area was brought to life in
327 the mid 1990's. In 2002 the house that was on this property was removed.
328

329 This renovation allowed the vendors additional space as well as
330 providing other revenue generating opportunities.
331

332 In 2005 City Council adopted a resolution and master plan to renovate the
333 Market that included expansion, the change of the center shed area,
334 parking lot reconfiguration, addressing the lighting, painting the structure and
335 making upgrades to the actual Market office building. The master plan was
336 approved.
337

338 Following the approval of the renovations, City Council awarded a contract or
339 the design and development plans which allowed the construction to begin.
340

341 In 2005 the original budget was approximately \$950,000.00 which included all
342 construction fees and consulting fees.
343

344 The Market has experienced many challenges since the approval process.
345

346 There have been other elements that have been added to the site that have
347 contributed to the challenges to get the plan in place.
348

349 It was decided to do a phased implementation for the continuation of renovations
350 at the Market.

351
352 In 2007 a new cost estimate was of \$1,300,000.00 - \$1,600,000.00 for the renovations
353 of the Market.

354 Phase one elements have been started, which include, changing the electrical panels.

355
356
357 At the end of last year City Council was made aware of and acted on a loan regarding
358 the storm water management components. The Allen Creek drainage improvement
359 plan was one of several projects that will be ongoing. The Market received
360 approximately \$599,000.000 to fund several storm water management components.
361 The center structure would have a green roof to mitigate some of the storm water.

362
363 The SRF loan is being provided to the project through the storm water fund at no cost
364 to the Market or Parks and Recreation Services.

365
366 City Council will act on a resolution to modify the contractor's current contract to
367 incorporate the storm water features. Overall the hopes are that these added features
368 and the added funding sources will allow the re-channeling of the money to other
369 portions of the project not implemented with the previous budget.

370
371 If plans proceed in a positive manner the goal is to begin construction in October of
372 2009.

373
374 **L. Berauer** asked since the \$122,000.00 is coming from four different sources, will the
375 requested \$30,600.00 come from the park millage fund.

376
377 **J. Dehring** stated yes, the additional money is for the consultant fee increase
378 for the design services.

379
380 **L. Berauer** asked if the entire \$122,000.00 is solely for increased design
381 services.

382
383 **J. Dehring** explained the scope of the project has increased too approximately
384 \$2,000,000.00 and the increase in design fees is in line with the increased
385 budget.

386
387 **L. Berauer** explained the Park Advisory Commission is not being asked for a
388 recommendation and the extra \$122,000.00 requested is coming from different
389 sources, \$30,600.00 from the old park millage (Fund 018), \$48,000.00 from
390 the storm water fund and \$13,500.00 from the DDA.

391
392 **J. Dehring** stated in the original budget, there were funds allocated for design
393 services and were divided between the Market, Parks and Recreation and the DDA.

394
395 The DDA provides parking on the site and this is why the DDA is involved.

399 **L. Berauer** stated the Market fund is the fourth source from which a little over
400 \$30,000.00 is coming from.

401
402 **J. Dehring** stated there is language in the Resolution that may require
403 procedural changes that may be difficult to interpret.

404
405 **L. Berauer** stated she was not comfortable giving more of the park millage fund to
406 renovate the Market.

407
408 **S. Rosencrans** asked what level of public disruption has or may occur
409 during the renovation process at the Market.

410
411 **J. Dehring** stated to date there has not been any interruption to the public or
412 the vendors at the site.

413
414 **S. Rosencrans** asked what the percentage of the changes are from
415 conditions that were not foreseeable and not planned.

416
417 **J. Dehring** stated the lighting system (significant electrical upgrades will have
418 to be made) throughout the vendor space under the shed are being updated
419 and storm water issues will be a significant cost.

420
421 **S. Rosencrans** asked if the additional costs in the project are due to changing
422 the scope of the project.

423
424 **J. Dehring** stated the scope of the work has changed; the addition of different
425 elements to the project, increase in material cost, labor costs and supplies
426 have made a difference in costs.

427
428 **S. Rosencrans** asked in terms of the changes made how many changes were
429 made due to the public feedback.

430
431 **J. Dehring** stated as far as the storm water features, there were several public
432 meetings on this issue.

433
434 **L. Berauer** stated it was approximately 5 years ago that park staff first brought
435 the proposal regarding the renovation of the Market to the Commission. The
436 Parks Advisory Commission originally rejected the proposal, as well as City
437 Council.

438
439 The Mayor formed a small task force which included, retired Councilperson Robert
440 Johnson, several other Council members and staff to redevelop a new proposal and it
441 was adopted.

442
443 **J. Dehring** stated and explained public input will take place in the near future
444 as the renovations of the final implementation are underway. The electrical
445 upgrades are also a request from the vendors.

446
447

448 **B. Macomber** asked if the overall project budget is going from approximately
449 \$1,000,000.00 to \$2,000,000.00.

450
451 **J. Dehring** stated yes.

452
453 **B. Macomber** asked if the additional monies for the proposed budget will
454 come from the Parks budget, the millage fund or the general fund.

455
456 **C. Smith** stated there is a table in the packet and proceeded to explain the
457 financial aspect in depth. The remainder of the comments was not audible.

458
459 (No Audio - Microphone not activated)

460
461 **B. Macomber** stated she did not recall the additional millage money allocation
462 being discussed at the Park Advisory meeting. B. Macomber also asked if
463 City Council has approved this budget.

464
465 **C. Smith** (No Audio – Microphone not activated)

466
467 **L. Berauer** (No Audio – Microphone not activated)

468
469 **B. Macomber** asked if the additional \$400,000.00 (from the old and new millage) for
470 this project will impact other proposed projects.

471
472 **C. Smith** stated he would forward the information to the Commission.

473
474 **L. Berauer** (No Audio – Microphone not activated)

475
476 **J. Dehring** stated there were a lot of challenges with the site and the design's
477 phased approach. Optional funding sources were explored. Phase one of the
478 current project with the designated contractor has been delayed.

479
480 **C. Smith** stated that during this process there has been a lot of staff transition.
481 C. Smith also stated that the project has needed some direction and the loan
482 from the State is on a tight time frame.

483
484 **L. Berauer** asked what the interest rate is for this loan.

485
486 **C. Smith** stated it was approximately 2%.

487
488 **S. Offen** asked about the means of loan re-payment.

489
490 **C. Smith** stated that Systems Planning is actually paying the loan back as part
491 of their storm water improvements and enhancements.

492
493 **S. Offen** asked if Systems Planning was part of the utility group.

494
495 **J. Dehring** stated that the storm water fund would be making repayments on
496 the loan.

497

498 **C. Smith** stated that Systems Planning considers the Market a good site to get
499 the message across about storm water.

501 **D. Barrett** asked J. Dehring if he was confident that no other deficiencies
502 would arise with this expansion project.

504 **J. Dehring** stated it appears that the unknown issues have been discovered
505 and reviewed. J. Dehring states that the consulting team has done a good job
506 of investigating and feels confident that their research has identified any
507 potential problems.

508
509 **J. Dehring** stated it was not an oversight for this issue to be brought before
510 the Park Advisory Commission before tonight's meeting. He states that the
511 loan had been approved and this was the first opportunity to bring this
512 information to the Commission.

514 **L. Berauer** asked why the information about Fund 018 was not brought before
515 the Commission.

517 **B. Macomber** stated this project appears to be a very good idea, but if the
518 additional \$400,000.00 is coming from an unknown source, it is unfortunate
519 that the Commission did not have the opportunity to discuss it.

520
521 **C-3** Budget Priorities Discussion

522
523 **L. Berauer** stated a list of priorities should be made to serve as a guideline in
524 the decision making process; copies of the priorities were passed to the
525 Commission.

526 **D. Barrett** asked if the new equipment that is used for the fields has actually
527 been purchased and is in use at this time.

528
529 **K. Henderson** asked M Warba to speak on this issue.

530
531 **M. Warba** stated it is a piece of equipment that has been in the inventory for
532 quite some time. It has been used at the golf course and there was a need to
533 put it to use at other sites.

534
535 **B. Macomber** asked for an explanation regarding Fund 2010.

536
537 **K. Henderson** explained upon moving to the Wheeler Center, each fund
538 contributes to the Wheeler Center fund to pay for expenses and cleaning at
539 the facility.

540
541 K. Henderson also explained the \$193,000.00 under 4035 was the one time
542 allocation from City Council to be used towards the maintenance of the soccer
543 fields.

544
545 **K. Henderson** stated any Forestry activities are paid from the millage.
546

547 K. Henderson also stated there is an allocation from Fund 018 to continue the
548 work on the reforestation in the parks.

549 **S. Offen (No Audio – Microphone not activated)**

551 **K. Henderson** stated refuse was moved to the Solid Waste millage.

552 **C. Smith** explained in regards to the reforestation, there is a budget of \$364,
553 000.00 which to date; only \$10,000.00 has been spent.

554 **K. Henderson** explained the focus was on the street trees at that particular
555 time. The tree reforestation in the parks will need to be subcontracted due to
556 the amount of work.

557 **C. Smith** stated there has been \$87,000.00 spent from the canopy
558 reforestation fund.

559 **K. Henderson** stated one of the items going to City Council this evening will
560 be the tree inventory.

561 **L. Berauer** stated she hopes K. Henderson can attend more of the Park
562 Advisory Commission meetings as well as the quarterly forecasting meetings.

563 **L. Berauer** stated the Commission would briefly discuss the principles list that
564 was handed out to the Commission.

565 **S. Offen** stated his intent was to bridge the comments made into a phrase
566 which hopefully will carry the intent of the priorities that were discussed.

567 **J. Grand** suggested the discussion regarding the priorities continue at the next
568 meeting.

569 **B. Macomber** stated the age breakdown for the pools and ice rinks is included
570 for discussion; the question remains what part of the City budget would absorb
571 the \$600,000.00 golf deficit. It would also be helpful to include golf statistics
572 since we have been asked to make approximately \$250,000.00 of cuts in the
573 budget.

574 **S. Offen** stated the priorities were taken from the public workshops and focus
575 groups.

576 **D - COMMISSION PROPOSED BUSINESS**

577 **E - REPORT FROM PARKS AND RECREATION MANAGER**

578 **F - REPORT FROM MANAGER OF FIELD OPERATIONS**
