Greetings,

These uncertain times afford us an even greater opportunity to work together. Going forward it may become necessary to rely more heavily on intergovernmental collaborations to accomplish many of our goals and objectives.

Washtenaw County strives to work effectively with the 28 local units of government within the county. For example, **1Washtenaw** is a county-wide effort to promote communication and collaboration among the local governments and Washtenaw County to keep pace with fast-changing technologies.

Beginning in January and February, County Administration would like to set aside time to meet with you and your County Commissioner to discuss future collaborations between Washtenaw County and your community. A member of our administrative team will be contacting you directly to schedule this meeting.

We look forward to meeting and working with all of you in the near future.

Sincerely,

A handwritten signature in black ink, appearing to read "R. E. Guenzel".
