**SSA: Q25.** In Ann Arbor, the standard garbage service is a 64-gallon garbage cart. To incentivize households to reduce the garbage they dispose and to increase how much they recycle and compost, smaller garbage containers could be provided for a lower cost. In other communities that do this, households are charged monthly, and the amount is based on the garbage container size they select. If Ann Arbor switched to this method of payment for garbage collection, the City could charge \$27 per month for a smaller 32-gallon cart, \$29 per month for the standard 64-gallon garbage cart, and \$31 per month for a larger 96-gallon cart.

Would you **[ROTATE]** support or oppose this method of paying for services?

**[IF PREFERENCE]** Do you feel that way strongly or not so strongly?

Support – strongly.....	32	25	42
