Subject: ZBA17-025 1140 Broadway Street

Mr. Barrett

I was not able to attend the meeting, but I want to address that I am against the request of decrease the number of parking spaces for the proposed project on 1140 Broadway st. I live on 1201 Broadway and the street in front of my home is always full with cars with persons outside the neighborhood but who come to the university of Michigan clinics or hospitals. Broadway st only allows parking on one side of the street. The proposal from 1140 Broadway will increase the problem of street parking. Although not the reason for the meeting I also want to comment that I oppose to the project due to the increase congestion that it will bring to a zone not design for such as big concentration of units proposed.

Regards,

Jose Lozano Garcia
