Re: Ann Arbor City Apartments
Color Clarification

Dear Mr. Kahan:

We regret to inform you that at the November 6th City Council Meeting, a representative of BKV mistakenly provided incorrect information regarding the color of the corrugated steel siding as grey. To clarify, as represented to staff, neighborhood organizations and the Planning Commission, the corrugated steel siding will match Benjamin Moore Tate Olive as listed on the finish material board submitted in September and represented in all of the colored renderings. The grey sample on the finish board is only a representation of the corrugated material, and not the color.

If you have any questions, please contact me.

Sincerely,

Michael J. Krych, AIA
