

## Seventh Street Process Committee

Minutes from Meeting on December 4, 2020

Committee members present: Julie Boland, Linda Diane Feldt, Seth Peterson

City staff present: Kayla Coleman

The goals of the meeting were to discuss two documents: an updated version of the committee's recommendations, and a new document that focused on the process used for Seventh Street remediations.

It was decided that rather than try to merge the two documents, both documents would be submitted as products of the report. Both documents were expected to be completed after some final revisions, following the meeting.
