

To Whom it May Concern,

I am writing to you as a concerned citizen and resident of Ann Arbor. I was distressed to see the plans that are being considered for the development of the East Huron River Drive area, particularly the lots that will be facing East Huron River Drive and the steeply sloping area surrounding the swamp.

As previous site plans have failed, I would think that any new plans would respect the area and want to preserve it's natural beauty along with the species who inhabit it.

I am all for development, but not at the expense of the environment and even less at the expense of legally protected endangered species. I urge you to remove the lots facing E. Huron River Dr. and move the development off the sensitive slopes above the wetland.

I will do everything in my power to see that this area is protected and hope that any new development will do the same.

Thank you for your time,

Lisa Cronin
