**Subject:** Zoning of 515/517 Oxford Street

Hello, I'm emailing regarding the rezoning of the property at 515/517 Oxford Street. Apparently, this property was designed by some distant relative of mine, and now there is a bunch of whining from various relatives about how turning the property into housing for Michigan students is some kind of crime against humanity or some such nonsense. But I have been asked by people who otherwise couldn't pick me out of a lineup to email you expressing my love of this house I was once dragged to kicking and screaming.

You can tear the place down for all I care, and I hope you do, just so I can laugh at the complaints of these idiots. Definitely don't waste the public's resources debating the completely legal rezoning of this property any further.

Best,

George Price
