**Subject:** Train Station Alternatives analysis Phase II Report Now Available

After extensive review by the Federal Railroad Administration, the City of Ann Arbor is releasing the Ann Arbor Station [Alternatives Analysis Phase II report](#). The report builds upon the Phase I Alternatives Analysis by examining, in detail, three possible train station sites.

The report is available on the project website at [a2gov.org/annarborstation](http://a2gov.org/annarborstation). The next round of public meetings to discuss the report and accept public comment are being scheduled for the latter half of September. We will update you when dates, times and locations are confirmed.

If you have any questions, please feel free to contact me.

Thank you for patience and understanding.

Eli Cooper

Transportation Program Manager
