Hi Jon,

I live across the street from the Lancasters and am in full support of the upgrades they are hoping to make to their home. I am expecting that the city will respond with permission promptly so that we (and all the Vinewood neighbors) can enjoy the beautification work that the Lancaster family has planned. I can't see any possible negative impact that this work on the breezeway would pose to anyone. The planned work will surely beautify and improve the neighborhood.

Very Best,

--
