To All Members of Ann Arbor City Council individually and collectively:

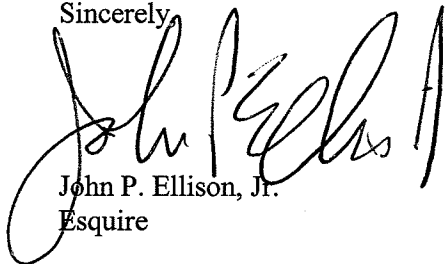

My name is John P. Ellison Jr.; I am the property owner of 331 East Kingsley St., Ann Arbor, Michigan 48104. It has been brought to my attention, that the property at the address of 322 East Kingsley Street is being proposed for zoning change from, R4C to something different under the new Zoning proposal. I am vehemently opposed to any changes to the zoning of 322 East Kingsley Street property that is currently zoned R4C, to be changed to any other zoning classification. In Particular, if the request zoning change would make the aforementioned property be of a commercial or industrial use. My property is across the street from the above listed property and I consider it to be within a zone of influence. A change of status has major implications for the neighborhood and the surrounding areas.

I could list a variety of legal as well as aesthetic reasons why this zoning change should not take place but believe all that is necessary is that an affected property within the current zoning status such as mine should not be subject to any zoning changes of the area. If any action has already taken place to change the property listed above this needs to be reversed. If no action has taken place then there should be no further action as to changing the zoning of this property.

Please forward this letter to all of the appropriate representatives in city council. I want to reiterate this is a formal demand that no zoning changes take place. I can be reached by telephone during the day at 734 936 5677 or in the evening at 734 769 0349. My mailing address for correspondence is listed above.

Thank you for your attention in advance.

Sincerely,

John P. Ellison, Jr.
