

Thanks.

It sounds like a worthy development with the following caveats:

1. Increased traffic through Lawton neighborhood. The streets are already in poor shape (e.g. South 7th) so would degrade even faster. There already is some speeding through the neighborhood.
2. Impact on our storm sewer capacity. It already is on the slim side, so concern is it will add more stress to the system.

Sincerely,

Thomas Johnson

Hello,

Yes, I did receive it this time. You can send any communications to me and I will forward to the Planning Commission. It is correct there will be a public hearing at the Planning Commission, you will have an opportunity to speak directly. There is no date set for Planning Commission action at this time. I can add your name to my email list, but please feel free to contact me for information and updates.

Thank you,

Matt Kowalski

Subject: 2250 Ann Arbor Saline Road

Dear Mr Kowalski:

I am a 20 year resident of Lawton and 40 year resident of Ann Arbor. I was out of town in March or April when a meeting was held on this subject. I wanted to attend today's meeting if it would be of benefit in getting up to speed, and read a posting on "Nextdoor Lawton" encouraging attendance and stating attendees would have a chance to voice an opinion.

I am definitely interested in this subject, and have some opinions, but called Mia to see if it was really a meeting I needed to attend, and she basically said probably would not benefit me that much and there would be ample opportunity for input later on.

So I am not going. If you would, please keep me in mind to notify when next opportunity for public discourse occurs.

Thank you very much.

Sincerely,

Thomas Johnson
