Section 3: Findings

During the public hearings on this Planned Unit Development Amendment, the Planning Commission and City Council determined that:

- (B) The surrounding neighborhood contains existing multi-family developments to the west & east, a public school to the north and abuts Ellsworth Road to the south.
- (C) It is in the best interest of the City of Ann Arbor that the developer reduce impervious surface and provide high quality independent senior living facility with designated

(D) The PUD zoning district provides:

- Senior independent housing with a minimum of 65 affordable housing units designated for households with income no higher than 60% of the Area Median Income;
- Economical land use by reducing the need for unnecessary impervious surface by reducing the parking provided and increasing useable open space;
- Increased required open space and setbacks adjacent to the residential neighborhood than existing zoning (R1C) regulations.
- Natural Features Management Plan for the northern open space that includes active removal and control of invasive species and planting of native species that encourage a healthy natural area.
- All exterior lighting will be Dark Sky compliant.
