4 APPROVAL OF AGENDA

Lenart said there were no proposed changes to the agenda, but for the benefit of attendees, the public, and the Commission, he highlighted a few proposed staff recommendations.

For two reasons, he requested the Commission's postponement of three petitions that appear on the agenda:

For Item 11-c (1420 S. Maple – a 256 condominium development) and Item 11-e (202 Miller, a Medical Marijuana Provisioning Center Special Exception Use Permit application) our public hearing notices mailed to nearby property owners contained errors. For this reason, he requested postponement for each item so that accurate notices could be provided and the public hearing continued to the August 8th meeting.

For item 11-b (1251 N. Main – Medical Marijuana Provisioning Center Special Exception Use Permit), the petitioner had requested postponement to consider comments regarding traffic circulation; he requested postponement of this item, as well, to the August 8th agenda.

He explained for each of these items, staff will not present a staff report, however, the public hearing should be held pursuant to notice made. The public hearing for each item will be continued to August 8th, providing an opportunity for any interested individual to address the Planning Commission prior to action. While the public hearing will begin this evening and continue to August 8th, note that individuals may only address the Planning Commission once on the item.

On a voice vote the agenda was approved without objection.
