Subject: 515-517 Oxford Rd. addition

Dear Planning Commission:

We hope that you will support the proposed addition for 515-517 Oxford Rd. so that the City Council will approve it.

We are pleased to see that the renovation and addition will preserve the architecture and quality of the surrounding neighborhood. As a member of the house corporation that not only manages the main sorority house but will also manage this property, we assure that we will continue to maintain the current upkeep as demonstrated at 626 Oxford.

In addition, both properties will have adult live-in supervision as well as constant involvement by the house corporation to insure a proper and neighborly environment.

Thank you for your consideration.

Sincerely,

Sally Elgin

President

Delta Gamma House Corporation
