Ann Arbor, MI 48104

Dear Ms. Beaudry,

Enclosed you'll find our latest publication about transit-oriented development (TOD) and the possibilities it presents for economic, environmental and social improvement in southeast Michigan. We've just published this booklet as a means of educating the public about the merits of TOD and smart community planning, and I am requesting your help in distributing it. I would appreciate if you could make the enclosed copies available at City Hall so that your community can learn more about the potential of TOD in Ann Arbor and in southeast Michigan.

Your assistance will enhance our efforts to stimulate regional dialogue and cultivate advocates for southeast Michigan's mature suburbs. Please feel free to contact me at (248) 546-2380 should you have any questions or require additional copies.

Kind regards,

Sharon Carney
