Subject: CrossFit TreeTown Special Exception Use

The above named program is requesting an exception to allow them to operate at 815 Wildt Street. While I see that this is zoned M1, it is clearly at the edge-and surrounded by-residential properties. I live at 828 Edward Street and look directly down on this building from my back porch and new deck.

I telephoned the owner of Cross Fit and asked if the building was air conditioned. He said it was but he likes to have the windows open when there is an exercise program going on and, in fact, there is music as well as him speaking while the exercising is occurring.

While he was very nice on the phone, said I should call if I hear the music, etc. and he will "take care of it". Nice response, but can't imagine what that means and I am extremely uncomfortable about this. I am (very much) a senior, spend a lot of time in the summer on my porch and new deck and, knowing how the exercise "music" will likely come right up the hill, I am quite concerned about intrusive, boom boom exercise music wafting up and destroying my peace and quiet.

Sincerely,

Marlene Ross
