Hi Jen, given council's interest in reducing the city's percentage in future Greenbelt projects, one way that could be facilitated is to extend the Greenbelt boundary further west in Scio and Webster, and further north in Webster. The current millages in those townships each run through 2024 (Ann Arbor Township is completely within the Greenbelt boundary); several projects are set to close in the coming months where city shares are one-third or less of the appraised value of the easements. Boundaries were extended some time ago to reward townships that passed millages; the potential for expansion would be incentive for Northfield and possibly others to pursue new millages. Is this something you would consider?
Barry
