Subject: Housing project

To the City Planning Committee,

I think you have made an error in choosing the Platt location for your housing project. Traffic is already bad as it is. This will only make it worse. Plus, you seem to treat our neighborhood as if it is no consequence and you can just plunk down a large housing project because you don't think we matter.

We happen to be a cohesive neighborhood with many hidden beautiful spots and we want our area to become more friendly, not impersonal.

Also, I am aware that at least one member of your committee is married to someone who is going to profit off this project which is a conflict of interest. You may think because our community is not wealthy that it does not matter and that we do not matter.

Please take your behemoth somewhere else.

We care about this area. You don't seem to.

Yours sincerely,

Melissa Sklar
