

Hello, my name is John Henry Kaiser; I live out on Jackson Road. Here is my medical marijuana card.

I have lived a good life, and I try to help other people.

I was a firefighter for 25 years, and I trained firefighters.

I used to weigh 224 pounds, now I weigh in at 153. Before I got Medical marijuana I was down to 137.

A few years ago I was diagnosed with cancer, which was caused by working with asbestos. I have tumors all over the place. They put this tracheotomy hole in my throat so I can breathe.

At first I wouldn't try medical marijuana, but then I found out that it helped me. I usually eat it in cookies. When I can have the cookies I have less pain in my body, I can eat a lot better, I can sleep better, and it helps me keep my spirits up. It helps me with pain management and stress.

I don't have any money. I get \$404 a month.

If you do not let caregivers grow this medicine the way that the state law says they can grow it there will be nothing left over for people like me.

Chuck Ream is my caregiver. He has never charged me a penny for all of the medicine that he has brought to me. He would never apply for one of your illegal "licenses" (nobody would), so he could only grow 12 plants.

CAREGIVERS WON'T HAVE ENOUGH MEDICINE TO GIVE IT TO POOR PEOPLE UNLESS THEY CAN GROW IT LIKE THE STATE LAW SAYS THEY CAN! A caregiver who grows for dispensaries can give free medicine to their own patients.

WHAT KIND OF A PERSON WOULD TRY TO KEEP MEDICINE FROM SOMEBODY WHO IS AS SICK AS ME? I ask you!

PLEASE FIX UP THIS NEW LAW SO THAT IT WORKS TO GET THE MOST MEDICINE TO SICK PEOPLE.

ANN ARBOR VOTERS TOTALLY SUPPORT MEDICAL MARIJUANA, AND I NEED MY MEDICINE.

PLEASE, GOD, HAVE MERCY. PLEASE HAVE COMPASSION IN YOUR HEARTS! I thank you.
