23 Sept '08

Sirs:

I am very much opposed to this development. Because of the heavy traffic and the excessive speed of the cars on Maple St. it is difficult to drive out of our complex, it would be impossible if this student housing project were built. Students drive notoriously fast. It would be dangerous to split Walden II. Also I've watched the bumper to

bumper traffic on ^{the} US
expressway that borders the
church property. The students
living in this location would
be adversely affected by the
heavily polluted air they
would breathe. A 640 resident
student housing project would
endanger everyone except the
cash flow of the church!
