Good Morning Planning Staff,

Attached you will find a couple of letters of support for our location at 1712 S State St. as well as the "report on feasibility" that I will reference in my speech tonight. On this report I find page 5, section II(B) to support my theory that I am serving the "public interest" at this location because of my accessibility to the poor and disabled people that make up 60% of the population using the Michigan Medical Marijuana Act. This location provides easy and safe access especially for the disabled.

Thank you,

Dori Edwards

To Whom It May Concern,

I am writing this on behalf of the Treecity Health Collective located at 1712 S. State St., Ann Arbor MI. I occupy the building next door, 1710 S. State St., Ann Arbor MI, where I operate a message therapy business. I feel Treecity Health Collective is an asset to the community. Overall, they are good neighbors and very professional. I have never had any conflict with them as my neighbors and I think our businesses compliment each other. I hope we can remain neighbors for a long time to come.

Furthermore, I think they provide a much needed service to the community. As an Ann Arbor business owner, I am in full support of what they do! If there are any questions, feel free to contact me, (734) 355-9465.

Thank You,

Kelli Sinta

A handwritten signature in cursive script, appearing to read "Kelli Sinta".

Treecity Health Collective was the first place I went once I received my medical marihuana card from the state. I can honestly say I made an absolutely brilliant choice right off the bat. I have found nothing to complain about or be concerned with since the first day I walked through the door. Although I have several options closer to me, I gladly drive across town to better my experience.

The staff is exceptional at what they do. They are exceptionally knowledgeable about the product and the laws that cover it. They are professional in their behavior at all times but still very friendly and courteous. I have always been offered coffee or tea if I have to wait and the employees are always prepared to chat it up with you if they can. Within a few weeks, I felt like I was going to visit friends rather than filling a prescription.

The location is clean, neat and quiet. Everything inside is orderly and secure. The atmosphere has a professional aesthetic yet still maintains a peaceful and serene feeling. The lobby has a television and several informational pamphlets and is a comfortable area – especially when combined with the overall cheery attitude of the previously mentioned staff.

I wish more businesses, regardless of their trade or product, would take some tips from the folks at Treecity Health Collective. I hope they serve as the vanguard at removing any stigma left around marihuana dispensaries in the state.

To Whom it may concern.

Tree City Health Collective is in a great location. Not only is it extremely easy to get to, it is also slightly out of the downtown area helping to reduce traffic which also makes parking much easier. Another reason the location is so great is that it's very close to make places where people normally run errands such as Briarwood Mall or the surrounding strip malls, and the Kroger on Industrial. Overall, Tree City Health Collective is definitely in a prime location, in between two other businesses and near the mall and food which is why Tree City Health Collective 's current location, in my opinion, should not be changed.

Dear City Planning,

We are a business across the street from 1712 S State Street. They have been renting out spaces for their employee and customer overflow parking since Aug. 1, 2010. Since August 1, 2010 there have always been customer traffic going in and out of their spaces in fact I think I should charge them more.

Sincerely yours,

Harry Hawkins
