#8158

Dear Mayor and City Council Members,
The appointed City Council
has submitted a fine recommendation
for the landmark corner of
Hilly Hall. This corner will be
an Sun Club statement in
welcoming the 21st century.
Sun Club is a small American
City with a state, national
and international reputation.
The "German note" celebrated for
nearly 800 years on almost
every Sun Club street and
neighborhood will be followed
by an air installation by this
a recognized German firm. This
will be welcomed to a discerning
city and the quality understood!

The aesthetic value will be
appreciated and respected.

Sincerely,
Carol Hardier
