

City of Ann Arbor Planning Services

Memorandum

TO: City Planning Commission
FROM: Brett Lenart, Planning Manager
RE: **Draft Sign Ordinance**
DATE: May 19, 2020

It is apparent that the draft version that was originally included in your packet was not an adequate summary of the proposed sign ordinance and related changes, as well as changes that have been discussed most recently toward adoption of a revised Sign Ordinance.

My apologies on behalf of me and my team for this confusion. Toward more clarity, I am providing the attached version of a draft ordinance. This ordinance version begins with the most recent publicly published version of the ordinance from 12/13/19 (<https://www.a2gov.org/departments/planning/Documents/Planning/Ordinance%20to%20Adopt%20New%20Sign%20Regulations%2012-13-19%20final.pdf>), and annotates changes that were discussed at the subsequent working session, and additional recommendations.

It also narrows a few outstanding questions for discussion of the Planning Commission that I believe can be resolved relatively quickly.

Staff will deliberately walk through the changes for the benefit of the Commission and the public this evening. Additionally, if you have any particular questions or points you want to ensure are addressed as part of the presentation this evening, please don't hesitate to share them.

Enclosure
