Dear Planning Commission Members:

We are writing in support of the site plan for the housing development proposed for 542-544 North Main Street which will come before you on 6/16/2015.

The size, scale and careful design of this project make it a wonderful addition to the neighborhood. The project meets all zoning and planning requirements and respects and enhances the rhythm of existing streetscape.

We strongly urge you to vote in favor of this site plan.

Sincerely,

NCNA Area Planning Committee
