Hi Luke,

I concur with the comments sent to you by Ray Detter.

As a resident living adjacent to the hotel, I understand there will be more disruption from the planned construction and that I simply have to endure it as there is no recourse, in the same manner that I have had to endure the months of noise, ground shaking, and disruption of television service from the construction at 603 Huron. I sincerely hope that we all can work together to head off any problems from the construction and from the operation of the roof-top restaurant. I very much appreciate the opportunities to meet with you and others and discuss the plans.
