Subject: Public Services Area Standard Specifications
Downtown Street Design Manual

Ladies and Gentlemen:

The City of Ann Arbor is adopting the Downtown Street Design Manual as part of the City's Standard Specifications. The Manual was created through an 18 month process led by a multi-agency core staff team, with guiding input from a cross-disciplinary Advisory Committee, City Staff, and partner agencies. A copy of the Manual and corresponding Standard Details are enclosed. This manual supplements the current Standard Specifications for projects within the D1 (Downtown Core) and D2 (Downtown Interface) zoning districts.

The new standards and detail were effective October 30th, 2015. Therefore, all projects receiving construction plan approval after this date must include and comply with these details.

Very truly yours,
CITY OF ANN ARBOR
Public Services Area

A handwritten signature in black ink, appearing to read "Craig Hupy", is written over a light gray rectangular background.
