

Hello A2 planning office,

I'm writing to ask you deny the planned South Pond Village Development. We do not need more houses for the wealthy, nor do we need more sprawl. What we need is to preserve our green space. We have a millage for doing so, and as such we do not need the developer's tainted money. Keep in mind if you approve this project, you will face lengthy legal challenges because of the threatened butterfly species, so any revenue from ultimate legal victory will be very much delayed and compromised from years of legal fees. I ask you to be rational instead.

Thanks,

Colin Delaney
