

Planning Commission,

Permanently preserve all of South Pond Wetlands drainage basin as a nature area and wildlife sanctuary. The opportunities for creative use of this land with its proximity to the pond, river and NAP headquarters are many. This could be an economic benefit and an eco system preservation. Think beyond the usual housing development that does not benefit natural habitat and stresses infrastructure. Think positively and preserve this wildlife and nature area to benefit Ann Arbor and be an attraction for the broader community.

Respectfully,

Nancy Kaplan
