Subject: Proposed Woodbury Club Apartments Annexation, Zoning and Site Plan

I received notice of the upcoming hearing of the Ann Arbor City Planning Commission on the issue of the Woodbury Club Apartments Annexation. I reside in Barclay Way, so this plan directly impacts me. My main concern is that the additional traffic entailed in additional units on Nixon Rd would exacerbate the congestion already seen in this area, particularly at the corner of Nixon and Green. Lines of cars up to half a mile long at this intersection are already a problem in peak hours. This would doubtlessly be much worse if the additional 282 units are built in the proposed project.

I won't be able to be at the hearing, but I wanted to make sure that the Commission is aware of these concerns.

Thank you for your consideration.
