## D. Fee Proposal

Services and related fees can vary depending on each project type, site conditions and Owner's needs. We can work on a lump sum fee, a percentage of the construction cost, an hourly rate, or a combination of these. Without knowing enough about the building/site conditions wants/needs, it is not possible to accurately determine total fees.

We have included below many of the details, such as special and basic services, hourly rates, consultant's fees, etc. A typical arrangement of total basic architectural fees, including the bidding and construction phases, for a project budget of \$1 M to \$5 M would be 7%-12%. This fee range is dependent on factors such as project size, engineering requirements, and other design complexities. The percentage listed next to the phase heading defines the typical amount of architectural fees associated with each phase. The total of these percentages equals 100% of the architectural fees.

	<b>Basic Architectural Services</b>	<b>% of Total Fees</b>
A.	Schematic Design & Design Development Phase	25%
B.	Construction Document Phase	50%
C.	Bidding Phase	5%
D.	<u>Contract Administration Phase</u>	<u>20%</u>
E.	Total	100%
