Subject: Support of Circle K redevelopment

Dear Planning Commissioners

As you know there is a concerted effort to stop the redevelopment of the Circle K at the corner of Stadium and Packard.

My husband and I fully support this redevelopment. As neighbors in this area for over 20 years and frequent walkers by this site, we applaud Circle K for their proposed improvements. As it currently stands it is an eyesore and along w the gas station across the street- which we always wonder if they are allowed to keep so many cars on this property- we think an updated Circle K would be a vast improvement to what is currently there.

We hope the Planning Commission can agree on these improvements and send the approval to City Council.

Best regards,
Liz and Marc Margolis
