**Subject:** 515 Oxford Support

I wanted to write a note in support of the work going to be done to 515 Oxford. I live in the general neighborhood (2110 Vinewood Blvd) and love that the house will be updated and preserve the well maintained look of this neighborhood. As a member of the Greek Life community, I'm glad to see that good housing is being provided for the women set to move into the house. This will allow for women to live there with supervision on site actually making this housing better than it was before. I'm excited about this new project and this new opportunity for the women moving in. I am in full support of this project as someone looking to help collegians and Greek Life as well as someone who lives in the neighborhood. Thank you for your consideration.
