City Clerk
301 E. Huron Street
Ann Arbor Mi, 48104

Subject: Special assessment District No. 505, file No. 2013-037.

We are writing this letter to:

1. Object to the decision by the city to construct a Curb and Gutter where we don't see it necessary at this time. There are no proofs presented by the City to justify the project or any other alternatives to accomplish the same objective at a lower cost.
2. We are also objecting and appealing the amount assigned to us towards this project. This extra expense above and beyond the high taxes we already pay to the city is a burden we can live without.

If the City thinks that this project is absolutely necessary, like any household it should be managed within the current City budget, which is partially contributed by taxes we pay.

Sincerely,

Karim Berenjian
