Subject: 515-517 Oxford

Attn: Planning Commission
Ann Arbor City Council

Greetings,

I am writing to endorse construction efforts of the 515-517 Oxford property by Dan Pampreen of Dan's Houses. The planned project site plan will be used to convert the current space into housing for a Delta Gamma sorority annex. Dan's efforts have been invaluable - working closely with Planning Staff to preserve the Brigham House, studying original blueprints from Bentley Historical Library archives, replicating several original features not currently present, and working to meet Delta Gamma sorority space needs as much as possible.

This house will be an essential space for the DG chapter, and located directly across the street from the current sorority house at 626 Oxford. This space will allow all in-housers to be eligible to live together, and resolves the conflict between preservation and expansion, as well as encourages a tight-knit sisterhood for all eligible live-in collegiates.

As a former Delta Gamma at the U-M, and now an active alumni and House Corps member, I wholeheartedly endorse Dan's renovation and preservation efforts for the good of Delta Gamma and the community.

Sincerely,

Julia Reichlmayr
