Lovely home which was purchased by the owner without a carport and they knew that. Breaking zoning code, that exists for good reason, is not only unfair to the neighbors it is unfair to the residents of Ann Arbor who want our zoning codes enforced. I suggest you do not break the code, the negative impact on the neighborhood and integrity of this house would be considerable. And you would be adding to the portfolio of exemptions used by future petitioners to slowly render existing codes irrelevant. Thank you. Robert Eckstein
