Greetings Neighbours,

Would you please take some time to respond to our request. The city would like to know how our neighbours feel about the proposed project.

Thanks,

Regards,

Chima

Subject: Addition of room to accommodation of Chibu's disability

Greetings neighbours,

I apologize that you may get this information twice. I had some bounced back email, hence I'm re-sending it. Initially the city building associate said they would write letters to our neighbours. He called to say since our houses are under condo construction, we should check with our neighbors for willingness to accommodate our request. Find tGreetings Neighbours,

Trust everyone is doing well. We have applied to have a room added where our deck used to be. The city has scheduled us for the December 1st board meeting hearing. We have used the chair lift we had installed to move Chibu from upstairs to downstairs, which worked very well. However, now that his condition has gotten worse, it is difficult to bring him downstairs. He not only had a stroke, he was diagnosed with Parkinson's disease which has flared up. You all may receive a letter from the city asking for either support of this project or objection. We would ask and appreciate your support. I hope this email gets to everyone.

The above email was sent out on the 15th of november and some bounced back. Therefore, I'm resending it. Thanks.

Regards,

Chima
