Mayor Christopher Taylor
Larcom City Hall
301 E. Huron St.
Ann Arbor, MI 48104

Subject: **Resignation from Energy Commission**

Dear Mayor Taylor,

It is with regret that I must submit this resignation from my fifth term on the City's Energy Commission, for your consideration. I believe this resignation is required so as to enable my direct support of the Office of Sustainability and Innovation. I have appreciated the opportunity to serve the City and know that documents that I co-authored including the "Climate Action Plan" and "Sustainability Framework" offered some solid direction into now what is being implemented in A2Zero. I looked at the index of current council/board/commission members and proudly note that few have served longer (maybe Chris Graham) and believe that I only missed two meetings in almost 16 years. I do recommend that City Council utilize the expertise on this Commission more frequently going forward as reliable energy delivery with lower climate impact requiring delicate balance.

Please contact me if you have any questions or concerns.
Thanks,

Chuck Hookham
