Subject: Important to Improve Liberty & Main Corner

Hi Historical Commission,

In regards to <https://www.mlive.com/news/ann-arbor/2022/06/ann-arbor-historic-commission-rejects-3-story-addition-to-main-street-building.html> "Ann Arbor historic commission rejects 3-story addition to Main Street building" about the Pretzel Bell-occupied building on the northwest corner of Main and Liberty, I want to let the commission know that I think a multi-story building is important to improve, as increased density has positive transit and climate change impacts. I understand the commission has its obligations, but I wanted to communicate that. Thank you!

Sincerely,

Patrick Zabawa
