VARIANCE REQUEST

ARTICLE(S) AND SECTION(S) FROM WHICH A VARIANCE IS REQUESTED: (Example: Article 3, Section 5.26)

UDC Section 5.16.2.B.1.b - Required Parking for Child Care Center

REQUIRED DIMENSION: (Example: 40' front setback)

PROPOSED DIMENSION: (Example: 32 foot 8 inch front setback)

Feet: Inches:

DESCRIPTION OF PROPOSED WORK AND REASON FOR VARIANCE:

The referenced section requires one off street parking space per caregiver. The proposed use is a Child Care Center, with a maximum of 40 children and 10 caregivers. There are two compliant parking spaces on site, and we are seeking a variance of eight parking spaces.

The City of Ann Arbor Zoning Board of Appeals has the powers granted by State law and City Code Chapter 55, Section 5:29. A variance may be granted by the Zoning Board of Appeals only in cases involving practical difficulties or unnecessary hardships when all of the following statements are found to be true. Please provide a complete response to each of the statements below.

The alleged practical difficulties are exceptional and peculiar to the property of the Person requesting the variance, and result from conditions that do not exist generally throughout the City.

See attached.

The alleged practical difficulties that will result from a failure to grant the variance, include substantially more than mere inconvenience, inability to attain a higher financial return, or both.

See attached.

Allowing the variance will result in substantial justice being done, considering the public benefits intended to be secured by this chapter, the practical difficulties that will be suffered by a failure of the Board to grant a variance, and the rights of others whose property would be affected by the allowance of the variance.

See attached.

The conditions and circumstances on which the variance request is based shall not be a self-imposed practical difficulty.

See attached.

A variance approved shall be the minimum variance that will make possible a reasonable use of the land or structure.

See attached.

Section 2

City of Ann Arbor Planning Services – Zoning Board of Appeals Application

REQUEST TO ALTER A NONCONFORMING STRUCTURE

For the purposes of Article VI: Nonconformities Section 5.32.2 Nonconforming Structure, **alteration** is defined as any change in a Building that results in additional Floor Area being fit for occupancy, a greater number of dwelling or rooming units or an increase in the exterior dimensions of the Building.

A nonconforming structure may be maintained or restored, but permission to alter a nonconforming structure will only be approved by the Zoning Board of Appeals upon finding that it complies as nearly as practicable with the requirements of this Chapter and that it will not have a detrimental effect on neighboring property.

In the space below, describe the current use of the property, the proposed alteration, and the impact it would have on neighboring property.
