The Michigan Public Service Commission (Commission) will hold a pre-hearing to consider DTE Electric Company’s (DTE Electric) April 3, 2023 application requesting the Commission to: 1) determine that the costs proposed by DTE Electric are qualified costs under Customer Choice and Electricity Reliability Act (CCERA); and authorize the issuance of securitization bonds in an amount that will permit recovery of those qualified costs and other related costs; 2) allow DTE Electric the sole discretion as to whether and when to proceed with a securitization transaction; 3) authorize DTE Electric in the financing order to impose a nonbypassable securitization charge payable to the issuer of the securitization bonds pursuant to CCERA as a separate item on customer bills, to be rendered on and after the issuance of securitization bonds, and that is sufficient to pay: (a) the principal and interest of the securitization bonds, (b) other qualified costs associated with the issuance of the securitization bonds, and (c) service and ongoing support of the securitization bonds and the issuer of the

securitization bonds as proposed; 4) authorize DTE Electric in the financing order to impose a deferred tax surcharge sufficient to recoup the portions of the regulatory assets that are financed by deferred tax benefits as proposed; 5) authorize DTE Electric to include necessary language in its tariffs to accomplish the imposition of the above-referenced nonbypassable securitization charge and initially implement and periodically true-up the securitization charge, as proposed; 6) authorize DTE Electric to implement a bill credit reflecting the costs related to the portions of the net book value of the investment in the Trenton Channel and St. Clair generation sites that are included in current base rates, until such time that new base rates are implemented in Case No. U-21297 reflecting the removal of the securitized assets; 7) authorize DTE Electric to employ appropriate methodology to account for the transactions contemplated by the financing order, including granting any additional accounting authority and appropriate ratemaking treatment, as proposed; 8) grant to DTE Electric, pursuant to MCL 460.10i(9), the authority to refund and retire any or all of the securitization bonds that are issued, as proposed, upon demonstration of an ability to refinance under applicable bond covenants and that the securitization charge to service new securitization bonds, including transaction costs, would be less than the securitization charge required to service the securitization bonds being refunded; 9) authorize DTE Electric to create a special purpose entity to which it could transfer securitization property and approve transfers of the securitization property, as proposed, and rights thereunder to any transferee, successor or assignee of DTE Electric in accordance with CCERA; and 10) grant DTE Electric other and further relief.
