Nicholas,

We are pleased to offer the quotation for the Hydraulic Unit for your Willett Pump.

<u>ITEM</u>	<u>QTY</u>	<u>DESCRIPTION</u>	<u>PRICE EACH</u>	<u>TOTAL PRICE</u>
1	1	Replacement Hydraulic Unit for existing Willett Pump, Model 14/250/28B. The Willett Pump is powered by a conduct hydraulic power pack using a variable displacement axial piston pump driven by 50hp motor. An inline water cooler is also fitted to cool the hydraulic oil. The new power pack would include an Electrical Change Over facility, replacing the old Mechanical Changeover. (Customer to provide hydraulic hoses between pump and power unit).	\$53,380.00	\$53,380.00

Thank you for the opportunity to serve you and please let us know if we can be of further assistance.

Best regards,

Charlie Lovelace
