Infrastructure Maintenance and Transportation in the Urban Core

Lack of a coordinated urban core transportation plan that includes road conditions, pedestrian safety, lighting, signage, buses, and stormwater management

- Road Funding
- Non-Motorized
- Water and Sanitary Piping
- Stormwater
 - * Street Trees
- Capital Improvements Plan (CIP)

INTRODUCTION

- •Act 51
- Street Resurfacing Millage
- Metro Act

ROAD FUNDING

Act 51 Funds

- •Gas Tax
- License Plate Fees
- Dispersed to Communities from State
 - * Population
 - * Local and Major Street Miles

ACT 51

Maintenance Use of Act 51 Funds

- Street Surfaces (potholes & major patching)
- Snow and Ice Control
- Street Sweeping (partial)
- Signs and Pavement Markings
- Traffic Signals and Fiber Network

USE OF ACT 51 FUNDS

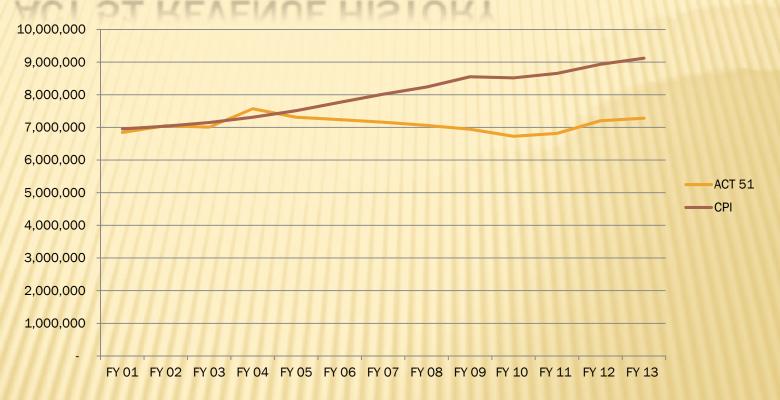

Act 51

Revenues

- Essentially flat last 10+ years
- Real purchasing power declined approx. 25+%

ACT 51

ACT 51 REVENUE HISTORY

- Voter approved 5-year cycle
- •Currently generates \$9.8 million with sidewalk repair (\$9 million or less during recession)

STREET RESURFACING MILLAGE

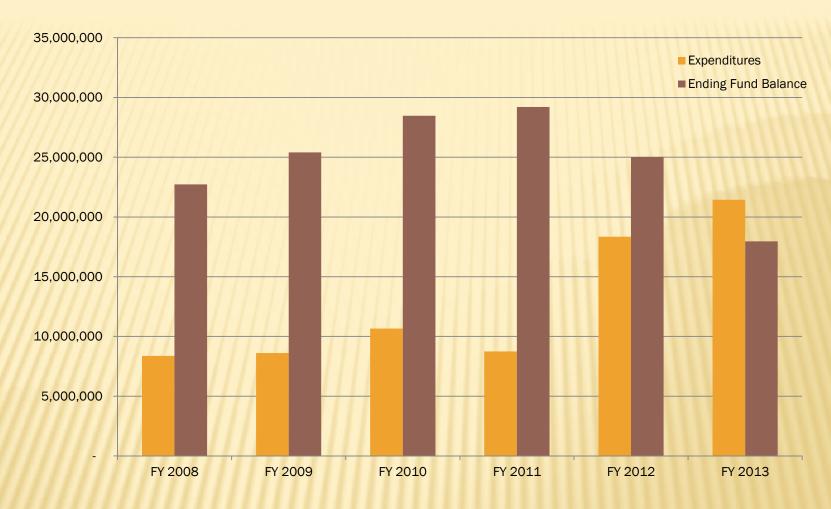

STREET MILLAGE REVENUE HISTORY

^{*}Sidewalk Levy began in FY 13

- Used to reconstruct Local and Major Streets
- Used to repair existing sidewalks
- Used for Local share of State and Federal Grants
- Built Fund Balance for Ann Arbor Bridges
- Increased Expenditures FY12, FY13 and FY14
- •GOAL To have 1 year of reserves

STREET RESURFACING MILLAGE

STREET MILLAGE

- State Tax on Telecommunication
- Distributed based on linear feet of Telecom

Funds are used to:

- Maintain facilities in a ROW
- Cannot be used for new installations

METRO FUNDS

| Funding Source | FY2012 | FY2013 | FY2014 (Forecasted) | FY2015 (Requested) |
|-------------------|--------------|--------------|------------------------|-----------------------|
| Act 51 | \$7,616,734 | \$7,876,113 | \$9,419,538 | \$8,956,611 |
| Millage | \$18,196,027 | \$21,442,274 | \$14,260,597 | \$10,937,699 |
| Metro | \$347,637 | \$159,011 | \$258,713 | \$263,170 |
| TOTAL | \$26,160,398 | \$29,477,398 | \$23,938,848 | \$20,157,480 |

ROAD FUNDING SUMMARY

- 9-Member City Council appointed Task Force
- Assigned to review Pedestrian Safety
 - *Crosswalks
 - *Sidewalks
- Use methodology/guidance of Federal Highway
 Administration
- Recommendations due August 2015

PEDESTRIAN SAFETY TASK FORCE

Funding Awarded for RRFB Locations

- •Geddes Avenue
- •Fuller Road
- South University Avenue

Facilities on Road Projects

- Jackson Avenue
- Pontiac Trail
- Ann Arbor-Saline Road & I-94

Programs

- Safe Routes to School
- Education and Outreach
- Bike Share

ALTERNATIVE TRANSPORTATION

- 424 miles of Water Main
- 363 miles of Sanitary Main
- Mostly within the ROW, under roads

WATER AND SEWER PIPING

WATER MAINS BY THE NUMBERS

| Decade Constru | cted Fe | eet of Main | Miles of Main | Percent of Total |
|-----------------------|----------------|-------------|---------------|------------------|
| 1880 | | 30,180 | 5.72 | 1.30% |
| 1890 | | 26,930 | 5.10 | 1.20% |
| 1900 | | 23,450 | 4.44 | 1.00% |
| 1910 | \approx 200% | 70,650 | 13.38 | 3.20% |
| 1920 | | 189,330 | 35.86 | 8.50% |
| 1930 | | 50,460 | 9.56 | 2.30% |
| 1940 | | 56,360 | 10.67 | 2.50% |
| 1950 | | 233,530 | 44.23 | 10.40% |
| 1960 | ~53% | 644,430 | 122.05 | 28.80% |
| 1970 | | 299,350 | 56.70 | 13.40% |
| 1980 | | 168,490 | 31.91 | 7.50% |
| 1990 | | 238,220 | 45.12 | 10.60% |
| 2000 | ~21% | 151,200 | 28.64 | 6.70% |
| 2010 | | 57,800 | 10.95 | 2.60% |
| TOTAL | | 2,240,380 | 424.31 | 100% |

SANITARY SEWER BY THE NUMBERS

| Decade Constructed | Feet of Main | Miles of Main | Percent of Total |
|---------------------------|--------------|---------------|------------------|
| 1910s | 252,469.87 | 47.82 | 13.15% |
| 1920s 70/ | 151,082.82 | 28.61 | 7.87% |
| 1930s 2 1 70 | 62,172.59 | 11.78 | 3.24% |
| 1940s | 60,186.40 | 11.40 | 3.14% |
| 1950s | 288,666.53 | 54.67 | 15.04% |
| 1960s ~52% | 501,027.74 | 94.89 | 26.10% |
| 1970s | 203,770.36 | 38.59 | 10.62% |
| 1980s | 140,317.46 | 26.58 | 7.31% |
| 1990s ~ 9 00/6 | 138,376.57 | 26.21 | 7.21% |
| 2000s 2000s | 63,311.74 | 11.99 | 3.30% |
| 2010s | 6,827.20 | 1.29 | 0.36% |
| unknown ≈ 30 | 51,106.00 | 9.68 | 2.66% |
| TOTAL | 1,919,315.29 | 363.51 | 100.00% |

25% OF TOTAL IMPERVIOUS AREAS ARE LOCATED WITHIN THE ROW

Green Streets Policy

- Water Quantity
- Water Quality

STORMWATER

STORMWATER OPPORTUNITIES

- Street Widths
- Surface Pervious vs.Impervious
- Curb & Gutter vs. Swales
- Street Trees & Planter Design
- Stormwater Control
 - -Water Quality
 - -Water Quantity
- Street Maintenance

- Managed like other infrastructure systems
- •43,244 street trees
- Intercept 65,000,000 gallons of rainfall annually
- Define the character of a street

URBAN FORESTRY

- Comprehensive Pavement Condition Ratings
- Wastewater Treatment Plant Reconstruction
- Wet Weather Studies

OTHER MAJOR EFFORTS

Capital Improvements Plan (CIP)

 Multidisciplinary model to encompass multiple efforts across the City

Capital Improvements Process

- Balancing competing needs
- Limited resources
 - * Funds * Staffing * Time

CAPITAL IMPROVEMENTS PLAN
