Hi. I would like to express my support for the Exception now before the Planning Commission for the Jesuits to live in the 7 bedroom home at 1919 Wayne St. I live in the Ann Arbor Hills neighborhood and am also a resident parishioner at St. Mary's Student Parish. These are prayerful and professional men who care for their property, tend to and serve a very large parish and its' needs/ demands and those of the community, and relax in their home and neighborhood as any of us do. They are busy men with full lives, like most of us nowadays, and deserve to have a safe and convenient home to their work in downtown Ann Arbor and neighboring communities. I support their move to this property and would be proud and pleased to know they are my neighbors. They can only be contributors, as in the spirit of the work they do, they have taken a vows dedicating their lives to others. Their presence at 1919 would be a model for all of us. I understand that there is concern for having 6 men in a 7 bedroom home. When viewing the home, I see a spacious home that meets their physical needs for beauty, comfort and privacy. The impact on the neighborhood would only be positive. Again, I fully support the Exception for the Jesuits to live at 1919 Wayne Street in Ann Arbor. Thanks for your thoughtful consideration of this important civic and social matter. Carol Galler 406 Awixa Rd.
