STAFF RECOMMENDATION

Staff recommends that the draft FY2017-2022 Capital Improvements Plan be **approved**.

STAFF REPORT

For the past several years, the City has carried out a two-year budget process where every other year a two-year budget is prepared and presented to the City Council, with the Council ultimately adopting the first of the two years budget for the ensuing fiscal year. During the following "budget season" staff adjusts the second year of the two-year budget based on the conditions at that time and presents that adjusted second year of the two-year budget to Council for adoption. A major portion of the budget is the Capital Budget. The two-year Capital Budget is based on the information contained in the first two years of the City's Capital Improvements Plan (CIP).

Therefore, the City's CIP process is performed in a manner similar to the two-year budget process. In the seasons that the second year of the in-place two-year budget is adjusted, the second year of the in-place CIP is also reviewed and adjusted rather than repeating the full CIP process each year.

This year is an “adjustment year” where the first two years of the FY2016-2021 CIP have been reviewed and updated by staff. This process involved effort by staff from numerous service units, including: the Community Service Area’s Planning & Development Services and Parks & Recreation Services Units; the Public Service Area’s Systems Planning, Project Management, Water Treatment, Wastewater Treatment, Field Operations, Fleet & Facilities, and Administration Units, as well as the Downtown Development Authority. The resulting FY2017-2022 Capital Improvements Plan will provide City officials, staff and members of the public with a helpful tool for understanding City infrastructure needs and their budgetary implications.

A summary of the adjustments can be found at the CIP section of the City Website:

Notice of the public hearing for the draft CIP was sent to representatives of registered neighborhood and commercial organizations, members of City committees that may have an interest in capital improvement projects and to other individuals and groups interested in planning issues. Copies of the plan were made available to the public on the City website and through the staff in the Community Services Area and Systems Planning Unit. It was requested that public comments regarding the draft plan be submitted to the City through the Systems Planning Unit via email, or through the Planning and Development Services Unit via e-mail, fax or postal mail. As of this date, no public comments have been submitted.
