Subject: R1C to R1E

Greetings,

I oppose the re-zoning of 2857 Packard Road from RIC to R1E. It amounts to political and financial GREED, under the guise of affordable housing and developer incentive. There is no regard for the environment, or quality of life , for the new inhabitants or their adjoining neighborhoods.

Cramming 56 houses onto the parcel, with no green space, no trees: (in this "City of Trees") will make it a warren.

Know that I love the property behind my house; I bought my house because of that property. The wonderful flora and fauna have given me hope, when hope was lost.

If development must occur, please DO NOT rezone, and allow space for nature and neighbors to live in harmony.

Sincerely,
Eileen Kreiner
2889 Easy St
