**Subject:** Re: opposition to Sandberg Variance

Mr. Barrett,

I came to the same conclusion as Carolyn Lepard after looking at Mr. Samberg's plans and talking with him. As a working architect, he would have known the challenges of the lot when he bought it. I think he should have designed a house to fit the lot size and within the zoning parameters. As proposed, the house will loom over the neighbor's homes and dominate the neighborhood.

I oppose the variance.

Regards,  
Margie McKinley
